

Mohamed Thaha Rasul

Python & AI Developer

+91 9042268022 · thaharasxl@gmail.com · Chennai, Tamil Nadu

[LinkedIn](#) · [GitHub](#)

PROFILE

Final-year Computer Science student and aspiring Software Developer with a strong foundation in Python, Data Structures & Algorithms, and modern web development. Experienced in building responsive web applications using HTML, CSS, JavaScript, Flask, and React, while exploring AI-powered solutions with Large Language Models (LLMs), Retrieval-Augmented Generation (RAG), embeddings, and vector databases. Passionate about solving real-world problems, continuously learning emerging technologies, and building scalable, user-centric software solutions.

EDUCATION

B.E. Computer Science Engineering

2023 – 2027

Anna University

CGPA: 9.0/ 10 · Ranked Top

Higher Secondary Schooling

2023

Bethel Matric Hr Sec School

Percentage: 85%

WORK EXPERIENCE

AI & Python Development Trainee

Jan 2026 – Present

CareerSpace

- Completed hands-on training in Python development, modern web technologies, and Generative AI concepts.
- Built AI-powered applications using Python, Flask, Large Language Models (LLMs), RAG, embeddings, and ChromaDB.
- Developed responsive web applications using HTML, CSS, JavaScript, React, and Flask while following Git and GitHub workflows.

Full-Stack Development Intern

Jan – Feb 2025

National Small Industries Corporation (Govt. of India)

- Built interactive web modules using HTML, CSS, and backend scripting
- Worked in a team-based development environment solving real-time issues
- Learned deployment workflow and debugging practices

Data Visualization Intern

July 2025

Rochester Institute of Technology

- Processed and cleaned real-world datasets using Python (Pandas, NumPy) for structured analysis
- Developed data processing scripts and automated workflows for transforming raw data
- Implemented logic-driven insights and backend data handling to support dashboard systems

PROJECTS

HealthConnect

↗ *Live Demo*

- Developed a responsive healthcare web application using React, TypeScript, and Vite with an intuitive user interface for patients and healthcare providers.
- Implemented modules for appointment booking, doctor discovery, digital health records, and online consultations with a focus on usability.
- Designed a scalable frontend architecture and optimized the application for responsive performance across desktop and mobile devices.

Career Guidance Platform

↗ *Live Demo*

- Built an AI-powered career guidance web application using Python, Flask, HTML, CSS, and JavaScript.
- Developed an interactive interface to help users explore career paths and receive personalized guidance based on their interests and goals.
- Integrated modern web technologies with backend logic to deliver a responsive and user-friendly experience.

TECHNICAL SKILLS

<i>Programming</i>	— Python · C++ · SQL · JavaScript (basic)
<i>Core CS</i>	— Data Structures & Algorithms · OOP · DBMS · Operating Systems
<i>Backend</i>	— Python · Flask · REST APIs (Basic) · API Integration
<i>AI / GenAI</i>	— OpenAI API · Hugging Face API · ChromaDB · Retrieval-Augmented Generation (RAG) · Embeddings · LLM Integration
<i>Tools</i>	— Git · Linux · Jupyter Notebook · Documentation · UI/UX Prototyping

CERTIFICATIONS

- Oracle Cloud Infrastructure — Certified Associate
- NPTEL IITM — Computing in Python, Silver Medal (77%)
- Google — Crash Course in Python (94%)
- Google — Data Science, Security & Debugging Certifications
- Aptis English Test — CEFR Grade C

ACHIEVEMENTS

- Secured 1st & 2nd ranks in the first two years (9.0+ CGPA).
- Office Bearer, Computer Society of India (CSI); led 10+ technical events for 100+ participants.
- Best Student Award recipient, English Fluency Programme, for communication and presentation excellence.
- IEEE Student Member; attended technical conferences & actively utilized research publications for learning.
